zens feel that their interests have been wilfully neglected, the remonstrance, to be effectual, must it in a pot of boiling water. Put your white come through its legitimate channel-a public meeting, called for the purpose—the columns of a newspaper, is not the most appropriate medium, through which to make known their grievance. At all events, it behooves the proper officers of the Company to see that the work progresses as speedily as possible, if they desire to avoid the charge of neglect, in the discharge of their respective duties. We attach no blame to any individual, or to any set of officers, in these remarks, we have only desired to call the attention of the Company to the fact, that there is frequent complaint made to us, and we are told much dissatisfaction exists in our community on account of the slow progress of the work.

Associate Commissioner to Mexico.

The Hon. NATHAN CLIFFORD, U. S. Attorney General, has been nominated and confirmed Associate commissioner with Senator SEVIER, for the purpose of negotiating with the Mexican Government; the immediate cause of this appointment was the sudden illness of Mr. SEVIER, which would in all probability, detain him a week or two, from preceding on his mission. He is expected to be able to go in a few days. Mr. CLIFFORD, ac- clouk it in mystery, or in any way deceive the pubcompanied by the Secretary of the Legation, is lie by overrating its virtues; on the contrary, I shall now on his way to Mexico.

France.

The news of the Revolution in Paris, came upon us like a clap of thunder, though the last accounts from Europe, gave indications of dissatisfaction, amongst the people. We refer our readers to the synopsis given in to-day's paper We are inclined to think, from all the light we have, that the people will obtain a more liberal form of Government. The London press admit that these events in Paris will probably have a powerful influence on the destinies of Europe. Whilst they express the utmost confidence in their national strength, they lift the warning voice, that the mistakes of 1792 may be avoided. Some of them even urge that no extra defensive preparations be made, and preach earnestly the doctrine of noninterference. They say that the right of the French nation to regulate its own affairs ought to be cheerfully acknowledged, uninfluenced by any of the wisdom, or even justice of such regulation. This is the true policy, and if adopted by all the European powers will bring matters to a speedier conclusion. We trust the result will be the enlargement of the area of human liberty, and hap-

The latest date from Congress is the 23d inst. On that day Mr. WEBSTER, made a four hour's speech against the bill authorising a loan of sixteen millions Immediately after the passage of the loan bill, the bill for raising 30,000 volunteers ing children and a tenderly attached husband is to be pressed in the Senate.

We see it stated that the authorities of the city of Charleston have prohibited the sale of the " Discipline of the Methodist Church South," because it retains a section which testifies to the "great evil of slavery," and enquires how it may be "extirpated." We have been surprised that the General Conference permitted the odious clause to remain. In the Southern church it is ill d worse than useless.

The long expected correspondence between Gon. Scott and the Secretary of war was yesterday communicated by the President, and has produced great sensation. The Whigs have of late turned their attention to Gen. PULMONARY CONSUMPTION.

From its having almost always baffled the most skilful medical treatment, has very justly been termed the "Opprobium of Physicians;" and until within a few years, been generally considered incurable, although many medical men of the highest standing, a. mong whom we may mention Laennec and his friend Bayle-both distinguished authors, admit that this much dreaded disease may be cured, even in its advanced stages, when the lungs are not completely disorganized. The remedy which we now offer, Wistar's Balsam of Wild Cherry, for the cure of this disease, not only emanates from a regular Physician, but has also tested in all complaints for which it is recommended. It is not my intention, therefore, either to simply endeavor to give a brief statement of its usefulness: and flatter myself that its surprising efficacy will enable me to furnish such proofs of its virtues as will satisfy the most inderedulous, that Consumption may and "CAN BE CURED," if the medicine be resorted

28th. 1846, and says: I would cheerfully accept of an Agen-cy for the sale of your family medicines, because I feel satsfied that if I had not taken your EXPECTORANT, I should before this day been in my grave. In the month of August, 1845, I had a very severe attack of Typus Fever and Inflamation of my Lungs, which reduced me very low. In a few days after my fever left me and I began to gain strength; I had a bad cough and mised large quantities of matter from my lungs or stomach. As my strength increased, my cough also increased. I told my physician I wanted to take your Expectorant. He thought it was not best. He made me some syrup for my cough, which I took for two or three weeks, but it did me no good. My cough still increased so much that my stomach and lungs felt as if they were all raw, there was such a soreness. I raised a

they were all raw, there was such a soreness. I raised a very large amount, and it appeared to me that I was as bad off as many people I have seen in the last stages of consumption. I finally concluded that I had the consumption, and that I could not live but a short time. I therefore determined to be my own physician. I sent to Catskill for a half a dezen bottles of your Expectorant, and commenced taking it, and in less than twenty-four hours there was quite a horse increase follows and horse I had taken two but. a change ing my feelings, and before I had taken two bot-tles of it, I was restored to my usual health.

"HANG OUT" THE CLOTHING "ON THE OUTER WALLS,"

For the cry is, "Still they come." Who comes? Why, the customers, to be sure! They can't well do otherwise, when our stock of Ready Made CLOTHING has been so well replenished by the arrival of the Southerner from N. York and the DeKalb from Charleston—and our prices are so well suited to the times. Now is the time for bargains; the gentle Spring is fast approaching, and we wish the heavy articles to give place to something more scasonable. Should any be too late, it will be their own fault.
